

# TIME DOES <sup>not</sup> HEAL ALL WOUNDS

Breaking the Cycle of Adverse Childhood Experiences • REGISTER: [www.ACESConference.info](http://www.ACESConference.info)

**Adverse Childhood Experiences (ACES) impact not just childhood, but the physical and emotional lifetime health trajectory of its survivors. We often see the impact and are frustrated in our efforts to help.** Can anything we do now alter the life course health trajectory of the children and adults who have experienced childhood trauma and bear its scars? Many of today's leading thinkers say **YES**. The Perinatal Network of Monroe County and the Monroe County Office of Mental Health will host a week-long event anchored by a keynote conference on **Wednesday, November 14, 2012**. Join us for a day with America's leading experts on the impact of Adverse Childhood Experiences and how to break the cycle of trauma.

#### **National Experts to Speak in Rochester**

**Robert Anda, MD, MS**, is co-author of the seminal ACES study and leading expert on the impact of adverse childhood experiences on life-long health development.

**Dr. Sandra L. Bloom**, national expert on trauma-informed organizations will speak about institutional change and secondary/vicarious trauma

**Joseph Spinazzola, Ph.D.** specializes in the assessment of complex adaptation to childhood trauma in children and adults; he will speak about innovative therapies.

**Jody Todd Manly, Ph.D**, Clinical Director of the Mt. Hope Family will address the impact of ACES on attachment and how the cycle is perpetuated.

**Registration Fee \$75 or \$100 to register for both events. For a full listing of events and to register, go to [www.ACESConference.info](http://www.ACESConference.info)**

**Beyond the Theory: Effective Interaction with Children and Their Parents  
A Workshop for Child Care Providers  
Saturday, November 17, 2012  
9:30 am - 12:30 pm at  
the Bausch & Lomb Library,  
115 South Ave. Rochester, NY  
Breakfast will be served**

This interactive workshop for child care providers and their licensors will train providers in identifying when a child's behavior is likely a response to adverse experiences and then what to do: How to interact with the child in developmentally appropriate ways, when to refer for additional support, and where to refer based on particular situations. Special attention will be given to how to deal with parents – how to discuss a child's behavior/needs with parents and how to talk to parents of children who are victims of a child who is acting out.

**Registration Fee for this workshop alone is \$50.  
Register for the full day conference on Wednesday, Nov. 14 and get both events for \$100.**
